

It's Back-to-School Time but Some Children are Missing. *They are Battling Cancer.*

September is Childhood Cancer Awareness Month. Wear your gold ribbon to help raise awareness of all the children and families affected by these devastating diseases and the important work The Children's Security Blanket is doing to improve access to care. We provide funding for meals, lodging and transportation associated with cancer treatments so children can get to the care they need and families can fight the battle together.

We need your support as we partner with families throughout the journey.
